

2019-20 SCHOOL YEAR SCHOOL HEALTH PROFILES FORM

Healthy Schools Act of 2010

Under Section 602 of the *Healthy Schools Act of 2010* (L18-0209, DC Official Code § 38-826.02), each public school and public charter school within the District of Columbia is required to:

- 1.) **Complete and submit** the online School Health Profile (SHP) form to the Office of the State Superintendent of Education (OSSE).
- 2.) Make the completed profile available to the public by posting it online, if the school has a website, and making the information available to parents in the school's main office.

Any public school or public charter school that fails to complete and submit its SHP form to OSSE **on or before Feb. 17** of each year will be out of compliance with Section 602 of the Healthy Schools Act of 2010. The School Health Profile is used by OSSE to inform the School Report Card. Non-compliant schools will not include data from their School Health Profile on their School Report Card.

	Other:

Section 3: Health Education Instruction

Recommended point of contact for this section: Health Education Teacher, Physical Education teacher

Important Definitions for this Section:

<u>Health Education</u>: Formal, structured health education as defined by the Centers for Disease Control and Prevention consists of any combination of planned learning experiences that provide the opportunity to acquire information and the skills students need to make quality decisions. Health education instruction of the District of Columbia Health Education Standards (DC Official Code § 38–821.01).

Health Education Minutes: This number should represent the average number of minutes per week over the course of the school year. If a student only receives health education for one semester or one quarter, please average the total weekly minutes for the whole school year. Do **NOT** include physical education instruction time in this figure. This average should only include time devoted exclusively to health education instruction that utilizes a health-specific curriculum. For this question, please indicate an average between 0 and 125 minutes of health education that your school provides per grade for every week of the school year. The Healthy Schools Act requires an average of 75 minutes of health education per week for grades K - 8 (DC Official Code § 38–824.02).

<u>Cardiopulmonary Resuscitation Training:</u> Public and public charter schools that serve grades 9 through 12 shall include cardiopulmonary resuscitation (CPR) instruction in at least one health class necessary for graduation. The instruction shall be nationally recognized and based on the most current evidencebased emergency cardiovascular care guidelines for resuscitation, include appropriate use of an automated external defibrillator (AED), and incorporate hands-on practice (DC Official Code § 38–824.02).

Section 4: Physical Education Instruction

Recommended point of contact for this section: Physical Education Teacher

Important Definitions for this Section:

<u>Physical Education:</u> Physical education (PE) is instruction based on the District of Columbia Physical Education Standards, of which at least 50% of the time is spent in moderate to vigorous physical activity (DC Official Code § 38–821.01). As SHAPE America explains, "physical education provides students with a planned, sequential, K through 12 standards-based program of curricula and instruction designed to develop motor skills, knowledge and behaviors for active living, physical fitness, sportsmanship, selfefficacy and emotional intelligence."

<u>Physical Education Minutes:</u> The Healthy Schools Act sets requirements for physical education and physical activity by grade band. For students in grades K - 5, schools shall provide an average of 90 minutes of physical education per week, with a goal to provide an average of 150 minutes per week. For students in grades 6 - 8, schools shall provide an average of 135 minutes of physical education per week, with a goal to provide an average of 225 minutes per week. At least 50 percent of physical education time shall be spent-on-moderate to vigorous physical activity (movement resulting in substantially increased heart rate and breathing). (DC Official Code § 38–824.02).

Physical Activity: Physical activity means bodily movement, including walking, dancing, or gardening (DC Official Code § 38–821.01). Physical activity promotes normal and healthy growth and development. It can help reduce the risk of chronic disease and improve general health and overall daily function in people who do it regularly. For students in grades K-8, it shall be the goal to provide 60 minutes of physical activity per day (DC Official Code § 38–824.01). For students in grades Pre-K3 and Pre-K4, schools shall provide an average of 60 minutes of physical activity per day, with a goal to provide 90 minutes of physical activity per day. (DC Official Code § 38–824.02). For this question, please indicate a daily average between 0 and 135 for grades Pre-K3 and Pre-K4.

<u>Moderate-to-Vigorous Physical Activity:</u> Movement resulting in a substantially increased heart rate and breathing (DC Official Code § 38–821.01).

Moderate-to-Vigorous Physical Activity Minutes: This number should include the time that students are participating in moderate-to-vigorous physical activity. It should NOT include time devoted to administrative tasks, transitions, or breaks. The number reported in question 30 cannot exceed the number in question 28. For students in grades K-8, at least 50 percent of physical education time shall be spent on moderate-to-vigorous physical activity (DC Official Code § 38–824.02). For this question, please indicate a weekly average between 0 and 225 for grades K-5, and a weekly average between 0 and 300 for grades 6-8.

Recess: Recess and Outdoor Physical Activity: Recess and outdoor physical activity is a regularly scheduled period in the school day for physical activity and play that is monitored by trained staff or volunteers. During this time, students are encouraged to be physically active and engaged with their peers in structured physical activities or activities of their choice, at all grade levels. Schools shall provide recess and outdoor physical activity for all students on a daily basis (weather and space permitting). For students in grades K - 8, it shall be the goal to provide at least one recess of at least 20 minutes per day. For students in grades Pre-K3 and Pre-K4, it schools shall be the goal to provide at least two 20 minute sessions of outdoor physical activity per day (DC Official Code § 38-824.02).

28. For each grade span in your school, please indicate the average number of minutes per week during the regular instructional school week that a student receives physical education instruction. This does NOT include recess or after school activities.*^

Grades: K – 5 Minutes/Week: 150

Grades: 6 – 8 Minutes/Week: 150

Grades: 9 – 12 Minutes/Week:

Note: Please state the curriculum's full name. If teachers in your school create their own curricula/lesson plans, please include the resources, standards, and/or websites used to create the curriculum.

Section 5: School Nutrition and Local Wellness Policy

Recommended points of contact for this section: Food Services Director or Manager, Principal, Chair of School Wellness Council/Committee

Important Definitions for this Section:

Alternative Breakfast Serving Model: An alternative breakfast serving model is a model of serving breakfast, such as breakfast in the classroom (BIC) or breakfast on grab-and-go carts, in which breakfast is offered in one or more locations with high student traffic other than the cafeteria. With alternative breakfast serving models, breakfast is also available after the start of the school day or both before and after the start of the school day. The model must be proven to increase student participation in breakfast relative to the traditional serving model, in which breakfast is served in the cafeteria before the start of the school day. Other alternative serving models may be used but may require approval by OSSE.

34. Is cold, filtered water available to students during meal times?*

Section 6: Distributing Information

Recommended point of contact for this section: Principal, Business Manager, Director of Operations

Important Definitions for this Section:

<u>Sustainable Agriculture:</u> An integrated system of plant and animal production practices having a sitespecific application that will, over the long-term: (a) Satisfy human food and fiber needs; (b) Enhance environmental quality and the natural resources base upon which the agriculture economy depends; (c) Make the most efficient use of nonrenewable resources and on-farm resources and integrate, where appropriate, natural biological cycles and controls; (d) Sustain the economic viability of farm operations and (e) Enhance the quality of life for farmers and society as a whole.

<u>Vegetarian Food Option:</u> Food or beverages that are: (a) free of meat, poultry, and seafood; and/or (b) utilize a meat alternative recognized by the United States Department of Agriculture as a meat alternate free of meat, poultry, and seafood for the purposes of the National School Lunch Program. Schools shall have a vegetarian food optional available for students as a main course for breakfasts and lunches. Schools shall clearly label vegetarian food options and rotate the main course vegetarian food option to avoid repetition (DC Official Code § 38–822.01).

Section 7: Environment

Recommended point of contact for this section: Principal, Lead Science Teacher

Data from the School Health Profile will be used to complete the Environmental Literacy Indicator Tool, a biennial survey used to determine progress on environmental literacy goals in the Chesapeake Bay Watershed Agreement. In the future, compiled results will be available on the chesapeakebayprogress.com website.

Important Definitions for this Section:

School Gardens: outdoor spaces that engage students through hands-on lessons that enhance learning.

Meaningful Watershed Educational Experience (MWEE's): Provide students with a better understanding of the natural environment by connecting classroom learning with outdoor field investigations. MWEE's encourage students to define an environmental issue, investigate the issue by collecting data through outdoor field experiences, take action to address the environmental issue at the personal or societal level, and then analyze and evaluate the results of the investigation to communicate findings to an audience. More information about MWEE's can be found at http://www.chesapeakebay.net/publications/title/meaningful watershed educational experience.

. Which of the following groups in your school participated in environmental education (EE) le provided by outside organizations or agencies?	earning experiences
48. Teachers of Grades K – 5	
✓ Yes □ No	
48a. Who was the provider?	
☐ Informal EE organization (e.g., Anacostia Watershed Society)	
☐ Higher Education (e.g., University of the District of Columbia)	
☐ Local Education Agency (e.g., DC Public Schools)	
☐ State Education Agency (OSSE)	
☐ Other District Agency (e.g., DC Department of Energy & Environment)	

		Federal Program (e.g., Smithsonian Institution)
	✓	Other, please list:Alice Ferguson
49.	Tea	achers of Grades 6 – 8
	✓	Yes No
49a.	W	ho was the provider?
		Informal EE organization (e.g., Anacostia Watershed Society)
		Higher Education (e.g., University of the District of Columbia)
		Local Education Agency (e.g., DC Public Schools)
		State Education Agency (OSSE)
		Other District Agency (e.g., DC Department of Energy & Environment)
		Federal Program (e.g., Smithsonian Institution)
	✓	Other, please list:Alice Ferguson Shalonda Hutchins-Johnson 7/8 grade
50.	Tea	achers of Grades 9 – 12
		Yes No
50a.	W	Tho was the provider?
		Informal EE organization (e.g., Anacostia Watershed Society)
		Higher Education (e.g., University of the District of Columbia)
		Local Education Agency (e.g., DC Public Schools)
		State Education Agency (OSSE)
		Other District Agency (e.g., DC Department of Energy & Environment)
		Federal Program (e.g., Smithsonian Institution)
		Other, please list:
51.	Adı	ministrators
		Yes
51a.	W	Tho was the provider?
		Informal EE organization (e.g., Anacostia Watershed Society)
		Higher Education (e.g., University of the District of Columbia)
		Local Education Agency (e.g., DC Public Schools)
		State Education Agency (OSSE)
		Other District Agency (e.g., DC Department of Energy & Environment)
		Federal Program (e.g., Smithsonian Institution)

	Other, please list:
	or each grade at your school, please indicate the level of participation in Meaningful Watershed Educational iences (MWEE) ^.
	rades: K – 5
	A system wide Meaningful Watershed Educational Experience is in place. Please describe (i.e., grade, description of unit, partnerships, etc.):
	Some classes participated in a Meaningful Watershed Educational Experience. Please describe (i.e., grade, description of unit, partnerships, etc.): 5th Grade, Vermiculture in the classroom, Alice Ferguson
	No evidence that students in this grade participated in a Meaningful Watershed Educational Experience.
	rades: 6 – 8
	A system wide Meaningful Watershed Educational Experience is in place. Please describe (i.e., grade, description of unit, partnerships, etc.):
	Some classes participated in a Meaningful Watershed Educational Experience. Please describe (i.e., grade, description of unit, partnerships, etc.): 6th Grade, Reducing our school waste, Alice Ferguson
	No evidence that students in this grade participated in a Meaningful Watershed Educational Experience.
	rades: 9 – 12
	A system wide Meaningful Watershed Educational Experience is in place. Please describe (i.e., grade, description of unit, partnerships, etc.):

53.	What practices is your LEA implementing related to sustainable, green schools? Select all that apply
	School-wide Recycling Program
	Lead testing of water
	On-site Composting
	☐ LEED Certification Type: ☐ Silver ☐ Gold ☐ Platinum
	Project Learning Tree Green Schools
	National Wildlife Federation Eco-Schools
	Environmentally-friendly cleaning products
	Landscaping with native plants
	Stormwater reduction efforts (i.e., rain barrels, cisterns, rain gardens)
	Sprint to Savings/Green Schools Energy Challenge
	Other

54.	What type of recycling hauling services does your school receive? Select all that apply
	☐ Cardboard only
	Paper and cardboard only
	☐ Mixed recyclables (plastic, metals, glass) only
	Co-mingled paper, cardboard, and mixed recyclables together ("single-stream")
	☐ Organics
	Other
	✓ None of these
55.	Does your school compost? Select all that apply
	Yes, we participate in an organics recycling (off-site composting) program
	✓ Yes, on-site outdoors (e.g. in garden)
	✓ Yes, on-site indoors (e.g. worm bin in classroom)
	☐ Other method
	☐ Don't Compost
	Does your school promote the Environmental Protection Agency's Indoor Air Quality Tools for Schools ram to reduce exposure to environmental factors that impact asthma among children and adults in public ols?
	✓ Yes □ No □ Don't know
57.	Does your school purchase environmentally-friendly cleaning supplies?
	✓ Yes □ No □ Don't know
58.	Does your school cleaning/maintenance staff follow green cleaning procedures?
	✓ Yes □ No □ Don't know
